

**JAMES F. LINEBACK, MD, FCCP**  
Fellow American College of Chest Physicians  
400 Newport Center Drive, Suite 301  
Newport Beach, CA 92660-5303

Board Certified – Internal Medicine  
Board Certified – Pulmonary Medicine  
Re-certification - Pulmonary Medicine: 2016

Phone: (949) 760-8600  
Fax: (949) 721-9121  
Email: [drlineback@linebackmd.com](mailto:drlineback@linebackmd.com)

**CURRICULUM VITAE**

**MEDICAL PRACTICE:**

Internal Medicine and Chest Medicine: 1984 – present  
Preventive Cardiology and Anti-Aging Medicine: 2005 – present

Emergency Medicine: Glendale Memorial, Santa Marta, and Daniel Freeman Hospitals; LAC/USC Medical Center; 1978-1988

Practice Specialties:

*Cardiopulmonary Medicine and Medical Physiology*

**MEDICAL-LEGAL  
CONSULTING PRACTICE:**

Case review and evaluation; deposition and trial appearance for Personal injury and medical malpractice cases: 1984 - present

Areas of Expertise:

*Causation, Disability, and Life Expectancy in Complex, Multi-System Catastrophic Injury Cases*

**PATHOLOGY EXPERIENCE:**

Autopsy Assistant, Hektoen Institute, Division of Pathology; Cook County Hospital, Chicago, Illinois; 1975 – 1976

Laboratory Assistant, West Suburban Hospital, Oak Park, Illinois; 1972 – 1973

**ACADEMIC APPOINTMENTS/  
TEACHING EXPERIENCE:**

Associate Clinical Professor of Medicine; University of California Riverside School of Medicine, Lecturer in Physiology: 2013-present  
Associate Clinical Professor of Medicine; UCLA: 1997 - 2013

Lecture Series:

*Pathophysiology and Mechanisms of Disease: Practicum For Second-Year Medical Students*

Associate Clinical Professor of Medicine at University of California Irvine Department of Anatomy; Guest Lecturer: 1995 – 2005

LA County/USC Medical Center, Department of Internal Medicine; Attending Physician: 1986 – 1997

National College of Chiropractic, Lombard, Illinois, Department of Anatomy; Teaching Assistant Human Anatomy: 1973 – 1974

University of Illinois College of Medicine, Department of Anatomy; Teaching Assistant Human Anatomy & Neuroanatomy: 1972-1974

James F. Lineback, MD, FCCP

**EDUCATION:**

Illinois State University, Departments of Chemistry and Biology,  
Major: Chemistry; Minor: Biology – Bachelor of Science, 1971

University of Illinois, College of Medicine, Department of Human  
Anatomy and Neuroanatomy – Masters of Science, 1974

University of Illinois, College of Medicine – Doctor of  
Medicine, 1977

**POST DOCTORATE  
EDUCATION:**

Internship: University of Southern California, Los Angeles County  
Medical Center; Rotating Intern; 1977 – 1978

Residency: University of Southern California, Los Angeles County  
Medical Center; Internal Medicine; 1978 – 1980

Chief Resident: University of Southern California, Los Angeles  
County Medical Center; Internal Medicine; 1980 – 1981

Fellowship: University of California Irvine Medical Center;  
Pulmonary and Critical Care Medicine; 1981 – 1983

**CURRENT SOCIETY  
AFFILIATIONS:**

American College of Chest Physicians: 1980 – present

American Academy of Anti-Aging Medicine: 2004 – present

**RESEARCH AND  
PUBLICATIONS:**

Research on the histological effects of long-term sensory  
deprivation in the cat visual system: 1971 -1974

*Specific Afferent Projection to Cat Visual Cortex* - Master's Thesis,  
University of Illinois; Chicago, Illinois, 1974

"Respiratory Diseases: Diagnostics, Prevention and Therapeutic  
Interventions". In *Health Practitioner's Guide to Anti-Aging and  
Regenerative Medicine 1<sup>st</sup> ed.* A4M Publications: Chicago, 2009;  
313-367

"Respiratory Diseases and Impairments: Diagnostics, Prevention  
and Therapeutic Interventions". In *Encyclopedia of Clinical Anti-  
Aging Medicine and Regenerative Biomedical Technologies.* A4M  
Publications: Chicago, 2012; 539-568

"Respiratory Diseases and Impairments: Considerations in  
Special Environments". In *Anti-Aging Therapeutics, Vol.XV,*  
American Academy of Anti-Aging Medicine: Chicago, 2013;95-105

"Respiratory Diseases and Impairments: Diagnostics, Prevention  
and Therapeutic Interventions". In *Guide to Anti-Aging and  
Regenerative Medicine,* eds. Drs. Ronald Klatz and Robert  
Goldman. A4M Publications: Chicago, 2013-2015; 577-606

**MEDICAL FELLOWSHIPS:** American College of Chest Physicians, 1993  
American Academy of Anti-Aging Medicine, 2005

**LECTURE SERIES TOPICS:**

- Acid-Base Physiology
- Acute Respiratory Distress Syndrome
- Acute Respiratory Failure
- Arterial Blood Gas Interpretation
- Asthma: Causation and Treatment
- Cardiopulmonary Interaction
- Chronic Lung Disease (COPD)
- Chronic Respiratory Failure
- Cor Pulmonale
- Cystic Fibrosis
- Diseases of the Chest Wall
- Emphysema
- Hypersensitivity Pneumonitis
- Lung Mechanics
- Occupational Lung Disease
- Obstructive and Restrictive Lung Disease
- Pathogenesis of Atherosclerosis
- Pathophysiology of Coronary Artery Disease
- Neuromuscular Disease
- Pediatric Lung Disease
- Pulmonary Effects of Smoking
- Pulmonary Embolism
- Pulmonary Function Testing
- Respiratory Muscle Physiology
- Tissue Oxygenation
- Ventilation Perfusion Relationships

**CME COURSEWORK:**

American College of Chest Physicians Annual Updates – 1986 to present:

- Acute respiratory failure/ARDS
- Asbestos related disorders
- Bronchiectasis
- Cardiac arrhythmias
- Cardiogenic shock/congestive heart failure
- Chest radiology and imaging
- Chronic anticoagulation
- Chronic lung disease
- Coronary artery disease
- Deep venous thrombosis
- Difficult airway management
- Exercise physiology and testing
- Endobronchial ultrasound
- Fiberoptic bronchoscopy
- Hemodynamic monitoring
- Intensive care unit infections
- Interstitial lung disease
- Lung cancer staging and evaluation
- Lung transplantation
- Multiple system organ failure
- Obstructive sleep apnea
- Occupational lung disease
- Perioperative care
- Pleural disease/ pleural effusion
- Pulmonary artery hypertension
- Pulmonary embolism
- Pulmonary function testing
- Pulmonary pathology
- Pulmonary physiology
- Pulmonary vascular disease
- Respiratory infections-abscess/pneumonias
- Respiratory muscle physiology
- Sepsis/septic shock
- Severe asthma
- Severe pneumonias
- Sleep disorders
- The critically ill pregnant patient
- Thoracic surgery
- Thromboembolic disease
- Tuberculosis and fungal infections
- Ventilator modes & respiratory mechanics

**CME COURSEWORK CONTINUED:**

American Academy of Anti-Aging Medicine Annual Updates – 2005 to present:

- Adrenal fatigue
- Aging and telomere rejuvenation
- Antioxidant biochemistry
- Biology of inflammation
- Biology of metabolic syndrome
- Cardiac risk of metabolic syndrome
- Cellular aging
- Cellular biology and obesity
- Chronic inflammation resulting from obesity
- Coronary artery disease resulting from chronic inflammation
- Exercise and aging
- Hormone replacement therapy and chronic obstructive pulmonary disease
- Impact of testosterone on the heart
- Metabolic and cardiovascular effects of obesity
- Metabolic complications of statins
- Metabolic treatment of traumatic brain injury
- Neuroendocrine interactions
- Nutritional deficiencies in athletes
- Nutritional deficiency and nutrition as medicine
- Neuroendocrine interactions
- Omega-3 fatty acids and chronic inflammation
- Oxidative stress
- Pathophysiology of chronic inflammation
- Pathophysiology of metabolic syndrome – insulin resistance
- Physiology of aging
- Physiology of micronutrients
- Stem cell biology and stem cell therapy
- Supplement use in hypertension and diabetes
- Telomere biology
- Telomere testing
- Testosterone physiology
- Therapeutic use of nutritional supplements
- Thyroid deficiency
- Vascular aging
